

Partner with Pegasus, the only Emergency Physician Group that has **never lost a contract**. Pegasus is an ER management company, not an outsourcing vendor.

And here's why...

PARTNERSHIP

PEG allies with hospitals to implement a business plan for mutual operational and financial success. Together, we focus on achieving increased market share, higher collections for facilities, EMR utilization, customer satisfaction, decreased walkouts, more appropriate admissions, and core measure compliance.

RESULTS

All PEG hospitals achieve greater facility fee revenue, improved resource usage, 100% EMR adoption, and an enhanced reputation in each of their communities. Unlike the competition, Pegasus quickly replaces physicians who do not practice to the highest standards. PEG hospitals consistently deliver **high patient satisfaction scores** in every state where Pegasus has a contract.

UNIQUE PRACTICE MODEL

PEG is the only group capable of transforming physicians from shift workers into incentivized owners, who are dedicated to the ER practice in your hospital. Consequently, PEG is able to attract the best doctors—a critical piece as to why Pegasus has **never lost a contract**.
